

The “green webinars” or weekly webinars are there to inform our partners about Bitcoin, Blockchain and Cryptocurrency in general. There is no need for partners to participate in those webinars. We still propose that partners participate but it is not necessary.

The “orange webinars” will come from time to time and will be announced by email to the agents. These webinars mean that there are [news regarding promotion, changes from our sides or general changes in the market](#). We highly suggest the partners to attend those orange webinars or at least to check the video after the webinar is done.

The “red webinars” are mandatory for every partner to see. Every partner will get an email, where we kindly ask them to participate in those webinars. Red webinars will be announced when [there are important changes from the SEC or Government](#). If a partner should not be able to participate on a red webinar, he has 24 hours time to watch the video afterwards. If an agent should not participate at the webinar or at least, watch the video within 24 hours, his POS will be blocked automatically until they have seen and agreed to the video.

The “green webinars” or weekly webinars are there [to inform our partners about Bitcoin, Blockchain and Cryptocurrency in general](#). There is no need for partners to participate in those webinars. We still propose that partners participate but it is not necessary.

# GREEN

## Example:

How Bitcoin works, What is Blockchain, Ethereum, ICO's, NFT's, DiD, KYC, AML and many more.

# ORANGE

## Example:

We can accept new currencies for our POS. Agents should update their POS/Website to accept for example Monero (XMR) now.

If an agent should not participate at the webinar or at least, watch the video within 24 hours, his POS will be blocked automatically until they have seen and agreed to the video.

# RED

## Example:

Iran ban's Bitcoin and every agent is not allowed anymore to accept Bitcoin from Iran Citizens.
