

Cryptocurrency helps you to avoid all the annoying bank fees typically associated with monetary transactions. Get away from overdraft fees, transfer fees, foreign transaction fees, and all other fees that go along with everyday bank business.

We see Bitcoin and Crypto in general as the future. In our opinion, Bitcoin/Crypto is today, what the Internet was in 2003. **The final impact of Bitcoin/Crypto to us will be even bigger than the Internet Revolution.** This is the reason why we want to start educating and bring more people into Bitcoin/Crypto. If we are able to handle this in an educational way, Thailand might become one of the greatest Crypto and Bitcoin Countries in the world by 2022.
